

JAS CHH

Data Engineer

- Eller , Düsseldorf
- +49 151
- chh.jas@gmail.com

PROFILE

- B.Tech Electronics & Communication Engineering, India
- Focus areas: Data modelling (dimensional, Lakehouse/Medallion), ETL/ELT, SQL query and cost optimization, data governance, analytics delivery (APIs, dashboards)
- Core Technologies: Python, SQL, Databricks, Spark, AWS, Azure, Docker, CI/CD, JavaScript
- Soft skills: Audience-appropriate communication, analytical thinking, independent working style, collaboration in international teams
- Permanent residence permit (unrestricted work authorization in Germany)
- Preferred working model: Hybrid or remote

EXPERIENCE

11/2022 – Present

Data Engineer | Alexander Thamm GmbH, Munich

- Designed and operated production-grade data platforms on AWS and Azure (Spark, Databricks, Delta Lake), delivering batch and streaming ETL/ELT pipelines for multiple enterprise clients
- Optimized Python pipelines and SQL queries, cutting runtimes by ~30% and cloud costs by ~25%; built dimensional and Lakehouse/Medallion data models
- Established CI/CD workflows (GitHub Actions) and data governance with Unity Catalog, standardizing access controls and data lineage across multiple client workspaces
- Developed analytics and full-stack solutions (React, TypeScript, REST APIs, Power BI) to support decision-making across business teams

01/2022 – 02/2022

Data Engineer Intern | PropertyExpert GmbH, Langenfeld

- Automated claims processes in the insurance sector using AI-driven workflows
- Designed data warehouse structures (data modelling) and optimized SQL queries to improve data processing performance

04/2019 – 07/2021

Relocation to Germany & Professional Development | Cologne

- Relocated to Germany for family reasons
- German language training to B2 level (telc Deutsch B2)
- Data Science Bootcamp, SPICED Academy, Cologne

04/2015 – 10/2018

Application Development Analyst | Accenture Pvt. Ltd., India

- Owned the design, development, and operation of large-scale ETL processes and data flows

- Implemented CI/CD pipelines for database objects, ensuring stable and efficient data processing
- Delivered data modeling, installation and production scripts (IQ), and low-level design documentation

EDUCATION

08/2010 – 06/2014

B.Tech Electronics & Communication Engineering

Biju Patnaik University of Technology (BPUT), Rourkela, India

4-year program

· Institution rated H+ in the anabin database

(degree recognized as equivalent to a German bachelor's degree)

TECHNICAL SKILLS

Programming	Python, SQL, JavaScript, TypeScript, Bash
Data Engineering	Apache Spark, Databricks, Delta Lake, Batch- und Streaming-ETL/ELT, Data modelling (dimensional, Lakehouse/Medallion)
Cloud & DevOps	AWS, Microsoft Azure, CI/CD (GitHub Actions, GitLab CI), Docker, Data Governance (Unity Catalog)
Analytics & Frontend	Power BI, REST APIs, React
Databases	PostgreSQL, SQL Server, MySQL, MongoDB, Oracle

LANGUAGES

German	B2 (telc) · Professional working proficiency
English	C2 – school & university education in English
Hindi	Native
Odia	Native

CERTIFICATIONS & TRAINING

2026	Databricks Certified Data Engineer Associate (in progress, expected 2026)
2021	Data Science at Spiced Academy - Cologne
